

# CONSTRUCTION

May 6, 2019

**WHAT:** As part of the ongoing skylight replacement project in the Atrium of 885 West Georgia, work to erect the interior scaffolding and platform system within the lower main lobby of the building has begun. The scaffolding installation will be limited to the west half of the lobby and Pendulum Gallery space. The interior work will run in parallel with the scaffolding work on the exterior of the building along Hornby Street.

**WHEN:** Interior work commenced in early April and will take place between 6:00 p.m. and 2:00 a.m. daily. Exterior work will continue to take place between 2:00 p.m. and 10:00 p.m. daily. The project is to be completed by mid-September 2019.

**ACCESS :** Regular access through the main lobby of the building will be maintained throughout the work period, with the assistance of directional signage, which will be installed along the interior scaffolding system. Similarly, exterior access along the Hornby Street sidewalk and bike lane will remain open.

**IMPACT TO GALLERY :** The Pendulum Gallery will not be using the gallery area during the construction period. We will continue to review and accept proposals and to program and curate for future exhibitions during this time, and will be undergoing maintenance and upgrades to our display systems. Look out for special off-site projects during the summer, and for our reopening with Splash 2019 Preview Exhibition in September.

**ON-SITE CAFÉ :** Sciu Italian Bakery Cafe in the main lobby will remain open for business.
